Features & Benefits

- No convection fan
radiant heat
- Automatic self cleaning
burn pot base automatically rotates to clear ash
- Remote, timer & thermostat controls
manage heat using a remote control and thermostat, programme your fire to turn off/on according to time. Wi-Fi optional
- Highly efficient
produces virtually no smoke and new technology re-burns ash leaving minimal residue
- Free-standing design
fits easily into many spaces
- Certified ultra low emission burner (ULEB)

- Made in NZ from natural untreated radiata pine wood waste
- Economical
- Low moisture - high in energy
- Clean and easy to store
- Great for the planet

Dimensions

Performance

Efficiency	86%
Maximum heat output	6.8kW
Hopper capacity	18kg
Living Area	*Average

* Subject to insulation levels

Clearance to combustibles

Internal Flue

External Flue

Freestanding clearances

Location	Dimension (mm)
A	250
B	150
C*	50
D	n/a
E	100
F	100
G*	50
H	100
I*	50
J*	25

* from shielded flue
* 75mm to unlined flue

Note: The above clearance to combustibles for the flue are only applicable within the fire envelope. Clearance outside this eg at a ceiling/wall thimble reverts to 25mm as per ARS flue test 05/1185. Correct as at September 2015.
